

New Product Announcement

Date: June 10, 2008

Another *NEW* product from Dedolight

DLH650DMX Tungsten light head with DMX control

To complete our DLH650 range of light heads including the DLH650, DLH650PO and DLH650PODMX, we now introduce the DLH650DMX.

This mains operated light has the identical optical and technical characteristics as the DLH650. The only difference being that the light head is combined with a DMX control unit.

For studio applications the combination of a DMX controllable and pole operated

light is preferable. For special cases, we also offer the light head with DMX control only. This unit may also be dimmed through built in push buttons without a DMX controller.

Technical Data:	DLH650DMX
Focus Angle:	56° - 8°
Focus Intensity:	1 : 13
Focus Scale:	Indicates current angle of beam
Wattage:	300 W, 500 W, 650 W
Voltage:	100 V, 120 V, 230 V, 240 V
Cable Length:	16.4 ft. (5 m)
Mounting:	16 mm (5/8") receptacle and 28 mm (1-1/8") stud
Tilt Control:	Tilt pivot at center-of-gravity provides excellent balance. Permanent friction and positive locking.
